

◆-----◆
Without the T2 center, I don't know where the great training we have received would come from. You have taught us important skills and have given us an opportunity to expand our knowledge by sharing it with others in our profession, Thank you!

~ Town of Stonington

◆-----◆
The T2 center has become a necessity for many municipalities in CT. During these troubling economic times, a program that provides relevant information, guidance and training at an affordable price, and provides it locally is an invaluable tool that we can not afford to lose.

~ City of Middletown

◆-----◆
The T2 Center has made me smarter and more confident in my ability to do my job because of the outstanding, affordable training programs you offer. You are truly transferring knowledge and the citizens of Connecticut are served well by the efforts of your program.

~ Town of South Windsor

Connecticut Technology Transfer Center's 2010 Yearbook

Our Mission

The Technology Transfer Center's mission is to foster a safe, efficient, environmentally sound transportation system by improving skills and knowledge of local transportation providers through training, technical assistance, and technology transfer.

In working with the T2 Center staff since 1995, many invaluable training programs have been developed and presented to our local road and state highway personnel to address the most hazardous workplace conditions. As a result, our public sector fatality rate has been in steady decline.

~ ConnOSHA

Your training programs provide excellent, affordable courses for all of us in the public works field. Your Road Master program has allowed me to bring critical knowledge back to the projects we do everyday. With the budgetary pressures we all face, establishing best practices is a must.

~ Town of New Milford

The specific training and safety awareness programs provided by the Technology Transfer Center staff have been beneficial in reducing our accidents and workplace injury incidents tremendously. Without the center, I am confident local agencies would be seeking additional funding to help cover increasing insurance premiums.

~ Town of Monroe

Congratulations Graduates

October 28, 2010

Dear Graduates:

The staff of the Connecticut Technology Transfer Center would like to congratulate those individuals who completed the Road Master, Road Scholar, Legal Traffic Authority and our new Public Works Academy in 2010.

Your dedication to these training programs is certainly a reflection on your commitment to excellence in your profession and to your personal and professional development.

2010 continued to be a challenging time for state and local agencies in Connecticut so we are even more grateful for your continued support and for making our educational programs a priority, even during difficult economic times. All of us at the T2 Center are so proud of you and your accomplishments.

We are excited about our new educational programs like the Transportation Leadership Program that will be introduced in the Fall of 2010. We are committed to finding ways to support your continual learning and sharing of knowledge with your peers.

We are most grateful for the support of the Federal Highway Administration, the Connecticut Department of Transportation, and the municipal agencies in Connecticut. Without you, we would not be able to provide all of these valuable services to our transportation community.

Congratulations Graduates!

Public Works Academy Class of 2010

Professionalism and Communication Skills in Public Works

2010 Connecticut

Public Works Academy Graduates

The Connecticut Public Works Academy is an educational program designed to provide both new and current public works employees with a broad overview of the fundamental skills needed to be a public works professional. Successful participants complete six consecutive full-day training sessions.
