

HIGHWAY SAFETY ROAD MAP¹

Topics, References, Resources & Guidance

The following is a comprehensive compilation of highway safety topics, references, resources and guidance with hyperlinks to public Internet web sites for detailed information. This “Highway Safety Road Map” is intended to be a “living document” for general guidance, reference, discussion and monitoring to assist and encourage the development, implementation and evaluation of Connecticut’s Strategic Highway Safety Plan. The expected outcomes include the planning and construction of highway safety improvements under the Federal-aid highway program, the setting and enforcement of safety performance standards under the State’s annual Highway Safety Plan, and the implementation of the State’s annual Commercial Vehicle Safety Plan under the Federal Motor Carrier Safety Assistance Program.

AGENCY MISSION STATEMENTS

Federal Agencies

ⁱ The [National Transportation Safety Board](#) is an independent Federal agency charged by Congress with investigating every civil aviation accident in the United States and significant accidents in other modes of transportation: railroad, highway, marine and pipeline. The NTSB determines the probable cause of the accidents and issues safety recommendations aimed at preventing future accidents. In addition, the NTSB carries out special studies concerning transportation safety and coordinates the resources of the Federal Government and other organizations to provide assistance to victims and their family members impacted by major transportation disasters.

ⁱⁱ The mission of the [Occupational Safety & Health Administration](#) is to assure safe and healthful working conditions for working men and women by setting and enforcing standards and by providing training, outreach, education and assistance.

ⁱⁱⁱ The mission of the [U.S. Department of Transportation](#) is to serve the United States by ensuring a fast, safe, efficient, accessible and convenient transportation system that meets our vital national interests and enhances the quality of life of the American people, today and into the future.

^{iv} The mission of the [Federal Highway Administration](#) is to improve mobility on our Nation's highways through national leadership, innovation, and program delivery.

^v The mission of the [Federal Motor Carrier Safety Administration](#) is to reduce crashes, injuries and fatalities involving large trucks and buses.

^{vi} The mission of the [Federal Railroad Administration](#) is to enable the safe, reliable, and efficient movement of people and goods for a strong America, now and in the future.

^{vii} The mission of the [Federal Transit Administration](#) is to ensure personal mobility and America's economic and community vitality by supporting high quality public transportation through leadership, technical assistance and financial resources."

^{viii} The mission of the [National Highway Transportation Safety Administration](#) is to save lives, prevent injuries and reduce economic costs due to road traffic crashes, through education, research, safety standards and enforcement activity.

^{ix} The [Office of Inspector General](#) is committed to fulfilling its statutory responsibilities and supporting members of Congress, the Secretary, senior Department officials, and the public in achieving a safe, efficient, and effective transportation system.

^x The mission of the [Research and Innovative Technology Administration](#) is to coordinate the U.S. Department of Transportation's (DOT) research programs and advance the deployment of cross-cutting technologies to improve our Nation's transportation system.

^{xi} The mission of the [Government Accountability Office](#) is to support the Congress in meeting its constitutional responsibilities and to help improve the performance and ensure the accountability of the federal government for the benefit of the American people. We provide Congress with timely information that is objective, fact-based, nonpartisan, non-ideological, fair, and balanced.

State Agencies

^{xii} The mission of the [Connecticut Department of Emergency Services and Public Protection](#) is committed to protecting and improving the quality of life for all by providing a broad range of public safety services, training, regulatory guidance and scientific services utilizing enforcement, prevention, education and state of the art science and technology.

^{xiii} The mission of the [Connecticut Department of Labor](#) is to protect and promote the interests of Connecticut workers.

^{xiv} The mission of the [Division of Occupational Safety and Health](#) is to administer Connecticut's Public Employer Only State Plan and enforce occupational safety and health standards as they apply to all municipal and state employees; and provide on-site consultations to both public and private sector employers through the Connecticut Consultation Program to provide timely, courteous, and professional service to Connecticut employers to help them recognize and control workplace hazards and prevent work-related injuries, illnesses, and fatalities.

^{xv} The mission of the [Connecticut Department of Motor Vehicles](#) is to promote and advance public Safety, Security and Satisfaction through the regulation of drivers, their motor vehicles and certain motor vehicle-related businesses.

^{xvi} The mission of the [Connecticut Department of Public Health](#) is to protect and improve the health and safety of the people of Connecticut by assuring the conditions in which people can be healthy; preventing disease, injury, and disability; and promoting the equal enjoyment of the highest attainable standard of health, which is a human right and a priority of the state.

^{xvii} The mission of the [Connecticut Department of Transportation](#) is to provide a safe and efficient intermodal transportation network that improves the quality of life and promotes economic vitality for the State and the region.
